## Cyber and Data Insurance for Professions

In most cases we are able to provide an immediate indication of premium by simply completing all the sections on this form. If we are unable to provide you with a premium indication then complete all the sections with as much detail as possible, then click the submit button at the bottom of the form and a client manager will contact you for a bespoke quotation.

### Contact Details

Company name	
Address	
	Postcode
Contact number	Email
Business description	

The Cyber and Data Insurance policy can be purchased as a Standard cover or with additional add on cover such as First party cover, Fraudulent Instruction or Telecom Fraud.

### Standard Covers:

- **Information Security & Privacy Liability** – Covers the cost of damages and claims expenses you're legally liable to pay under Privacy law in the event of a Data Breach, Computer Security Failure, Failure to Disclose or Privacy Policy Failure
- **Beazley Breach Response Services** – In the event that you suffer a Data Breach or Computer Security Failure incident, the Insurer will facilitate the provision of the necessary services for you to respond to the incident, including Computer Expert Services, Legal Services, Notification Services, Call Centre Services, Breach Resolution and Mitigation Services and Public Relations and Crisis Management Expenses. This limit is expressed as a number of individuals (data subjects) covered making it easier to choose the appropriate limit size, and is a completely separate column of cover so you can use all the services cover and still have a financial limit left for any liability claims.

### Optional Cover available at an additional cost:

- **First Party Cover including:**
  - **Cyber Extortion** – covers a payment of money, goods or services made under duress to prevent or terminate an Extortion Threat
  - **First Party Data Protection** – covers the cost of restoring or regaining access to software or electronic data in your computer systems that is altered, corrupted, destroyed or deleted or that you are unable to access
  - **First Party Network Business Interruption** – covers your business' lost income and additional expenses in the event that your computer systems need to be interrupted or suspended as a result of Computer Security failing to prevent a security breach
- **Telecommunications Fraud** – covers you for direct financial loss that arises from a third party gaining access to your telephone system and using it in an unauthorised manner
- **Fraudulent Instruction** – covers you for losses resulting directly from you paying, delivering or transferring money as a direct result of fraudulent written, electronic or telephone instruction from someone purporting to be a vendor, client or authorised employee that is intended to mislead you

To get a quote simply complete the below statement of fact document, indicate your turnover, select additional add on cover as required and complete the claims section.

**Personally Identifiable Information (PII) means information concerning the individual that is defined as private personal information under statutes or breach notice laws, enacted to protect such information in any country.**

**PII does not include publicly available information that is lawfully made available to the general public from government records.**
